1. After reviewing an Agency report on women in higher level positions, you asked if we could put together a report showing certain information on Agency women in Grade GS-13 and above. This was to include information on fitness reports, supervisory positions, and management training.

2. In response to your request, attached is an alphabetical listing by grade of Agency women GS-13 and above. All of the employees listed had Strong or Outstanding fitness reports, unless otherwise indicated. The listing reflects whether or not each employee is assigned to a supervisory position. Concerning management training, we have listed all such training for the period 1 October 1973 to the present, an arbitrary time period but one that gives a good indication of training pursued.
